PROFILE

I'm a full-stack developer who enjoys building practical software that bridges intelligent automation with everyday usability. My experience includes developing data-driven tools such as web scrapers with AI-powered search, reporting dashboards, and an AI system that assists real estate professionals in evaluating properties through comparable data. I focus on creating solutions that are reliable, efficient, and easy to use.

EDUCATION

MNS University of Engineering and Technology

BS Computer Science — 3.27 CGPA

Oct 2020 – Oct 2024

EXPERIENCE

Associate Software Engineer

February 2025 – Present

Cyberify - OnSite

- Delivered AI-powered search and recommendation chatbot that improved product discovery and user engagement
- Developed reporting systems that enabled teams to generate PDF reports in seconds instead of hours
- Developed an AI-driven system for property evaluation for real estate professionals by generating reports
- Created data processing and scraping pipelines, enabling faster and more reliable data availability for business use cases

MERN Stack Developer

July 2022 – December 2024

Fiverr - Remote

- Got five star reviews from 10+ clients on Fiverr
- Worked on a variety of projects, from simple landing pages to complex web applications
- Collaborated closely with clients to gather and understand project requirements
- Delivered high-quality, customized solutions tailored to client needs
- Ensured client satisfaction through effective communication and project management skills
